**NG ENERGY RECEIVES INITIAL PREPAYMENT FOR 15 DAYS OF GAS PRODUCTION
FROM MARIA CONCHITA**

VANCOUVER, B.C., May 18, 2022 – NG Energy International Corp. (“NGE” or the “Company”) (TSXV: **GASX**) (OTCQX: **GASXF**) is pleased to announce that the Company has received an initial advance payment for the first 15 days of production from the María Conchita block. Energy Transitions S.A.S E.S.P. and Plus + SAS ESP’s prepayment for the acquisition of 3.5 million standard cubic feet per day (MMSCFD) of gas at a price of US\$5.08 / million British thermal unit (MMBTU), totals US\$277,368.00, for 80% of the gas production volume from the María Conchita field during this initial period.

The initial quantity to flow for the first 15 days of production in order to not stress the future performance of the wells and maximize long term operations is 3.5 MMSCFD. After the initial 15 days of production, and throughout the interruptible contract period, the Company expects to increase production to 16 MMSCFD.

Chief Executive Officer of NGE, Serafino Iacono commented “This initial prepayment marks a major milestone for the Company as it begins to monetize its gas. We look forward to keeping our shareholders and the market informed as gas begins to flow and we increase production to the targeted 16 MMSCFD.”
